

## 2001 – PROBLEM/PROJECT IDENTIFICATION FORM

The City is once again running concurrent processes for the distribution of Neighborhood Street Fund (NSF) and Cumulative Reserve SubFund (CRS) dollars for capital projects. The two funding sources available for allocation are described below.

**Forms are due back to the Department of Neighborhoods by Monday, April 2.**

**Neighborhood Street Fund (NSF) (\$500,000)** – Used for street-related construction projects. Examples include: curb bulbs, traffic circles, chicanes, and installing or repairing sidewalks. Safety related projects are especially competitive. Projects that only make cosmetic changes to the streetscape (such as murals and minor landscaping) are not eligible. NSF dollars may be spent anywhere in the city.

**Cumulative Reserve SubFund (CRS) (\$1,000,000)** – Used only to rehabilitate and/or repair existing city-owned facilities (such as roads or parks). Construction of new improvements (such as curb bulbs) are not eligible. This set-aside of CRS dollars is dedicated to projects that support neighborhood plan priorities.
